HIGHLIGHTS OF WHAT WE HAVE WRITTEN LATELY

These are some of the risks we are proud to have been able to help place recently through our teams from coast to coast.

EAST

Realty - Condos

QUEBEC

100% TSW LINE
\$100M LIMIT

Large condo placement in Quebec. In a distressed market our broker was unable to place full value for his large client. TSW terms were very competitive and client was very happy with the final solution.

Manufacturing

QUEBEC

100% TSW LINE
\$19.5M LIMIT

Chemical manufacturing plant with large amounts of high flash point high hazard chemicals stores on site (Engineered risk). Incumbent terms were secured through extremely high rates and deductibles and our broker was seeking improved terms on renewal. TSW were able to place the property through our strong partners at Lloyd's of London at significantly improved pricing.

Wood Processing Plant

QUEBEC

46.5% TSW LINE
\$45M LIMIT

Large secondary wood processing plant (engineered risk). Incumbent lead market had non-renewed the risk and our broker required large quota-share support to complement their new lead market.

<p>Logging contractor with local trucking and snow removal exposure. Complicated mix of tough occupancies was arranged within 24 hours as we were one day from binding.</p>	<p>Paper shredding and recycling plant in Saskatoon. Very challenging industry segment with very little market traction. Incumbent was lowering their capacity on renewal and broker needed support, which TSW was able to arrange at Lloyd's. Timing was also an issue on this account and this all arranged within 48 hours.</p>	<p>Wholesale Distributor of Pesticides and Insecticides. Incumbent market was non-renewing due to change in appetite and we were able to place a package solution for Property, CGL and Umbrella Liability. Timing was also critical as we only had a very short timeframe to put this together.</p>	<p>Pipeline construction project. Our broker client had lost their agency contract with the lead insurer and TSW was able to allow continued access.</p>	<p>Large hotel in Richmond, BC, next to the airport with wood frame construction. This area is a high CAT zone for earthquake, flood and liquefaction, and the client required full value coverage for flake. This coupled with the Hospitality Occupancy made this a challenging placement.</p>	<p>Large Trucking company and broker needed to file a BOR with incumbent market. TSW were able to help put a comprehensive package solution together for all lines of coverage.</p>
